25X1A <sup>2</sup> °	Comment. The Ministry of the Interior includes twise. the so-called Interior Administration headed by Star and the Ministry for the National Forces. Both branches a Minister Willi Stoph, whose main task is the organization army.	te Secretary Groetschel						
25X1A 3.	Comment. Information on an aeronautical research institute was transmitted previously in Pirna.  There were several indications of an airfield allegedly projected on Ruegen; however, they have remained unsubstantiated. Efforts have been initiated to obtain infon submarine training of the Sea Police in Sassnitz and the taking over former German submarines from the Soviets. These statements possibly correct. An airfield of the naval air force was formerly located Warnemuende. It appears doubtful that the activation of flying units by Sea Police has actually been commenced. Premnitz is the winter station of 2d Mecz Regt of the Eggesin Mecz Div. This is the first report on the coof an ammunition plant. The Central Tank Repair Shop of the KVP and a tan ammunition depot are located at Kluess near Guestrow.
